**Subject:** Gold King Mine Congressional Letters

Hello,

In an effort to be consistent in our responses to letters from Congress, OCIR is compiling a list of letters received both at HQ and in the Regions about Gold King Mine. HQ will work with the regions on the responses and they will most likely be signed by the Administrator. I will be putting together a chart that I will send to you to fill out. In the meantime, please send me any letters you have received on this issue to date and continue to do so as you receive them.

I will also be sending out a separate chart request for any emails from Congressional staff that you received and responded to in writing.

Many thanks,

Raquel Snyder
